

# Agilent Quality to Fit Your Budget

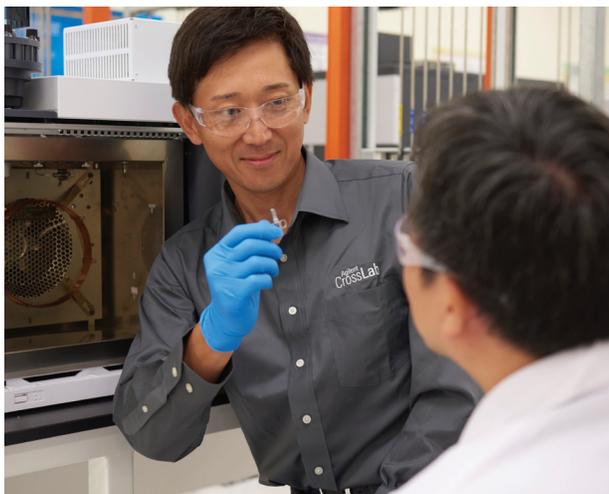

Agilent Certified Pre-Owned Instruments

# Agilent is the #1 Choice for Pre-Owned Analytical Instruments

Why take risks with third-party resellers when you can purchase directly from the experts?

Agilent instruments have the well-deserved reputation as the best in the industry due to their superior performance, ruggedness, and reliability. This makes them the top choice for anyone looking for high-performance analytical equipment on a budget.

## When buying Agilent Certified Pre-Owned instruments, there are no compromises.

You may think you have to make compromises in quality or performance when buying on a budget. In reality, you can expect Agilent Certified Pre-Owned instruments to perform like new, because they do. We stand behind them just like our new instruments – the same installation, support services, and warranty.

## See why Agilent is the #1 choice for pre-owned analytical instruments

### Validated Performance

Each instrument is rigorously refreshed to Agilent standards, including comprehensive electromechanical and operational performance validation.

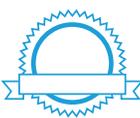

### Expert Installation

Only Agilent service engineers have the skills, qualifications, and experience necessary to ensure fast, worry-free startup.

### Exceptional Value

With Agilent Certified Pre-Owned instruments, you get the technology and the rock-solid reliability you really want, at an attractive price.

### Same-as-new Warranty

Agilent Certified Pre-Owned instruments receive a full one-year warranty, for peace of mind equal to that of a new Agilent instrument. Owners of a Certified Pre-Owned Agilent instrument also have the option to purchase an extended support contract.

## Everything you need to get back to your analysis

Whether you are teaching the next generation of scientists, making a life-changing discovery, or simply running routine analyses, you need your instrument to work for you.

At Agilent, we care about your success, so we deliver the resources you need to get up and running quickly, just as though you had purchased a brand new instrument.

### All Agilent Certified Pre-Owned instruments are provided with:

- All calibration certificates and factory checkout data.
- Same start-up tools, documentation, and accessories as with new instruments.
- 12-month, same-as-new Agilent warranty.
- Installation and familiarization by expert technicians.

Before refurbishment

After refurbishment

**Only Agilent can provide this level of proof that the instrument will perform like new. Try asking for this from any other reseller.**

## Agilent University Running Start

New hire in your lab? Give them an Agilent University Running Start and give yourself a break.

Properly trained operators are key to maximizing the return on your Agilent instruments. But locating and obtaining the right training can be time-consuming and expensive. Running Start makes it easy, with online learning modules carefully selected and packaged by our curriculum experts. Now, one simple, affordable purchase gets new instrument operators up to speed quickly.

## Agilent CrossLab Columns and Supplies

Agilent's comprehensive portfolio of columns, parts, and supplies are precision-engineered to offer added functionality, productivity, and performance for your instruments. With innovative new columns and designed-in supplies released every year, there is something for every application.

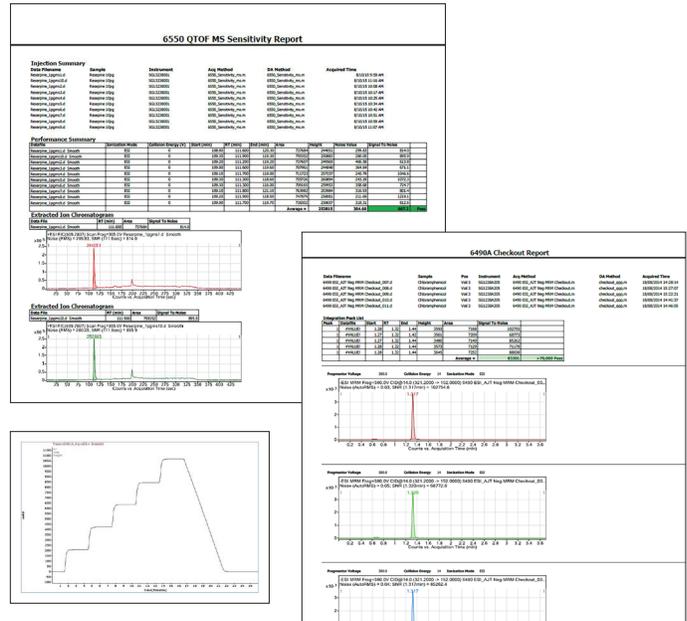

# Peace of Mind Included

Each Certified Pre-Owned instrument is hand-selected for restoration to as-new condition. Our technicians ensure that each instrument meets the same specifications as when the system was new, with the same proven performance, reliability, speed, and robustness you've come to expect from Agilent products.

Agilent's comprehensive refurbishment process ensures your Certified Pre-Owned instrument will work as good as new.

- Updated covers to look like the latest generation of instruments.
- Replacement of any damaged and wearable parts, including pistons, seals, lamps, and liners, with genuine Agilent CrossLab parts, designed with the instrument in mind.
- All performance and reliability upgrades — as specified by Agilent service notes throughout the instrument's first life.
- The latest compatible firmware and software upgrades.
- A final, multi-point quality checklist.

## Keep your new-to-you instrument running smoothly after warranty with an Agilent Service Plan

A five-year independent study of more than 38,000 service calls on Agilent and non-Agilent instruments shows that regular preventive maintenance pays off by keeping instruments online and staff productive. Consider extending your warranty to minimize expensive downtime.

# Efficient Solutions for Any Application and Budget

## Agilent Certified Pre-Owned Liquid Chromatography

Agilent's Certified Pre-Owned InfinityLab LC Series allows you to design a high-performance or ultra-high performance system to match your specific requirements. Configure your own LC with individual modules; choose from a selection of degassers, injection systems, fraction collectors, column compartments, detectors, and valves. Common pre-configured systems are available for easy purchase and startup.

(L to R, clockwise) 1100 Series, 1200 Series, Infinity I, and Infinity II available

## Agilent Certified Pre-Owned Spectroscopy, Bioanalyzers, and Cell Analysis

Agilent also offers fully refurbished ICP-MS, ICP-OES, MP-AES, Cary FTIR, UV-Vis, Bioanalyzers, and Seahorse Analyzers.

Systems pass performance testing to ensure worry-free operation for your laboratory, providing you great value without compromise.

## Agilent Certified Pre-Owned Gas Chromatography

Agilent Certified Pre-Owned 6890N, 7890, and 9000 Intuvo GCs give you everything you need to take your lab to the next level of GC and GC/MS performance, including advanced separation capabilities, powerful new productivity features, and real-time self-monitoring instrument intelligence.

Improve your lab efficiency and turn-around-time with a range of Certified Pre-Owned sample introduction systems for gas chromatography. Choose from headspace samplers, automatic liquid samplers, autoinjector modules, and trays.

## Agilent Certified Pre-Owned Mass Spectrometry

Agilent offers a comprehensive portfolio of mass spectrometry instruments to give you outstanding precision and sensitivity for any application. Our portfolio includes:

### LC/MS:

- Single and Triple Quadrupole
- Time-of-Flight (TOF)
- Quadrupole Time-of-Flight (Q-TOF)

### GC/MS:

- Single and Triple Quadrupole
- Quadrupole Time-of-Flight (Q-TOF)
- JetClean Self-Cleaning Ion Source

*"As a business owner, we have to watch our budget. We are looking not only at the quality, but also the price of the instrument. We purchased the Agilent 7890 with 7693 Autosampler with OpenLab. The top reasons for choosing the Agilent instrumentation were basically due to the price point and the quality."*

- Ernesto Piña, HIH Laboratory

# Unlock the Value of Your Older Instruments

## Agilent Instrument Trade-in and Buyback Services

Do you have a limited budget to move your lab to new technology? Are your older instruments collecting dust? Does the thought of dealing with the logistics of selling an instrument make your head spin?

Turn a cost and burden into credit or cash. Agilent will handle the disposition of your used instruments at no cost and give you credit of the old system, removing the costs and effort of environmentally responsible disposal into an income.

Let Agilent take care of the details and sell or trade-in your older chromatography, mass spec, and atomic spectroscopy instruments. How much are your older instruments worth?

Find out: [www.agilent.com/chem/buyback](http://www.agilent.com/chem/buyback)

## Keep sustainability in mind

Being an environmentally conscious supplier is a core belief for Agilent. The Agilent instrument trade-in and buyback program is just one of the many ways Agilent provides product sustainability and recycling options to customers with green initiatives.

Help us keep useful equipment out of landfills and contribute to a sustainable instrument lifecycle. For our commitment to sustainability through innovation, Agilent earned the 2018 Sustainability Leadership Award from the Business Intelligence Group.

## The quality is in the details
